Guide Share France Groupe de Travail MQ Mars 2017

Carl Farkas
Pan-EMEA zWebSphere Application Integration Consultant
IBM France D/2708
Paris, France
Internet : farkas@fr.ibm.com

Agenda

- Evènements
- Mark Taylor (IBM MQ Lab Hursley)
 - Nouveautés MQv9.0.2
 - MQ Monitoring OpenSource

Go here!

<https://ibm-messaging.github.io/>

The image displays two overlapping browser windows. The left window shows the IBM Messaging GitHub page at <https://ibm-messaging.github.io/>. The page features a navigation bar with 'Home', 'Our IBM Messaging Blog', and 'IBM Messaging on YouTube'. The main heading is 'IBM Messaging', followed by a welcome message: 'Welcome to IBM Messaging on GitHub. Here we have a collection of IBM-Messaging collateral for you to use. Please star repositories so we can see the collateral that is most useful.' A green button says 'Click here to see our collateral for IBM-Messaging'. Below this, there is a section for 'IBM MQLight' with the text: 'MQ Light provides a configurable messaging runtime, for developers to write app's in a new way. Check back here to browse and share our MQLight GitHub collection soon!' and a 'Coming soon »' button.

The right window shows the GitHub organization page for 'ibm-messaging' at <https://github.com/ibm-messaging>. The page header includes 'Personal', 'Open source', 'Business', 'Explore', 'Pricing', 'Blog', 'Support', 'This organization', 'Search', 'Sign in', and 'Sign up'. The organization name 'ibm-messaging' is displayed with the tagline 'Community around IBM Messaging products'. Below this, there is a 'Repositories' section with 'Pinned repositories' listed:

- mq-docker**: Sample Docker image for IBM® MQ. 40 stars, 48 forks.
- mq-appliance**: This repository contains information and samples relating to the IBM MQ Appliance. 1 star, 1 fork.
- mq-aws**: Sample code for running IBM® MQ on Amazon Web Services (AWS). 4 stars, 1 fork.
- mq-openstack**: Sample code for running IBM® MQ on OpenStack. 3 stars, 2 forks.
- mq-atom-mqsc**: Repository for the MQSC syntax highlighting code used in the Atom text editor. 2 stars.
- message-hub-samples**: 11 stars, 35 forks.

A search bar at the bottom of the repository list is labeled 'Search repositories...' with filters for 'Type: All' and 'Language: All'.

MQ v9 pricing

IBM Announcement ENUS917-031

“...Customers with MQ Advanced entitlement can now deploy MQ Managed File Transfer Agents at no cost and with no separate license entitlement when these Agents are connected to MQ Queue Managers that have MQ Advanced entitlements....”
